HOW TO SELL BONDS

Nothing Like a Paltry Million Dollars Worries Them -They Get It.

This is a notice to every sub-committee trying to sell Liberty bonds: If you find that your sales are not going fast enough and you need a million for the members of the Real Estate Board of New York and they will at you up. They can do it, for they proved it yesterday, when in about five missures time, they sent their own total of subscriptions up to \$1,101,700. This is the way it happened.

The real estate men had been working for an even ten days on the Lift-

ing for an even ten days on the Lim-erty Loan and they had set their hearts on having a full million dollars worth of subscriptions by noon time yeater-day, when they were all invited to at-tend a luncheon at the Real Estate Board rooms given by Alfred E. Maring, their chairman. Now, when the meet-ing before the luncheon was called to order, captains of the various commit-tees were asked to make their reports, everybody expecting that the total of everybody expecting that the total of \$712,000 previously reported would be sent well over the million dollar mark, and there were loud cheers when Charles B. Lyons and F. H. Wood reported \$15-500 for their committee. Robert Simon reported \$55,000, Douglas Elfi-man and A. B. Ashforth reported \$45. 666 and A. Rene Moen reported \$13,056. Then there were a great many \$2,056, \$3,060 and \$5,060 subscriptions an nounced, but when the total was added it was found that they still were short about \$65,600 of the amount necessary to put them over the million mark, Of course the disappointment was great and during all the time Laurence McGuire, president of the Real Estate Board, and Col. H. E. Thomason were delivering short addresses filled with fire and patriotism, everybody was thinking. "How the deuce can we raise that \$65,000 in a hurry?"

Mr. McGuire supplied the answer.
Just as Mr. Marling was about to invite everybody to luncheon the president First Lieut. Edward J. Whales to active duty at Camp Upton.

Five thousand dollar subscriptions came in rapid order from Mr. Marling, Mr. Simon and Agron Bables. Rabinowitz, Others subscribed \$500, \$1,000 and \$2,000. Then Joseph P. Day came in and added \$5,000 more. Still the total was not enough to carry it over the mark and Mr. Freedman announced that if the other members of the board n his name. He was taken at his word

UTILITIES DOING THEIR BIT.

Henry I. Doherty Says Public Does Not Appreciate It. Henry L. Doherty, the public utility Henry L. Doherty, the public utility magnate, declared yesterday that the people do not appreciate the important part the public service companies are playing in the prosecution of the general war programme and that any curtailment of their services would at once result in a slowing down of the war

preparations. Mr Doherty says:
"The Government is demanding of the public utility companies of the United States that they increase their power facilities, the facilities to supply the by-products from artificial gas manufacture as a small like the supply the companies." by-products from artificial gas manufacture so essential to our munition industry, and that electric railway facilities be increased to meet the tremandous demand being made upon them for transportation. To do these things requires capital. The demands of the Government on the utilities must be and will be met. The capital furnished utility companies and used by them in meeting the demands of the Government toward war preparation and war ment toward war preparation and war prosecution is as important materially as any other capital being used in the United States to-day."
